- **Dr. Richard Cibulski**, Global Malaria Programme, World Health Organisation
- **Dr. Jenny Amery**, Head of Profession, Health, UK Department of International Development
- **His Excellency Ambassador Berhanu Kebede**, Ambassador Extraordinary and Plenipotentiary, Embassy of the Federal Democratic Republic of Ethiopia (tbc)

Toynbee Mackenzie ENT Room,  
Royal Society of Medicine  
1 Wimpole Street, London W1G 0AE

The Roll Back Malaria (RBM) Partnership will launch the first in the RBM Progress & Impact series, a strategic effort to secure high levels of commitment to malaria control among donor countries, international health organisations, and governments of endemic and epidemic countries. By benchmarking progress toward the RBM 2010 targets (calling for universal coverage of malaria interventions), disseminating findings, and informing advocacy efforts to resolve implementation bottlenecks, this series seeks to ensure a level of support that will result in sustained, long-term commitment and success toward ultimately ridding the world of malaria. The *Country Funding and Resource Utilization Report* provides an update on the availability and utilization of global and regional funding over the past decade.

Space is limited. Please RSVP to [s.pickwick@malariaconsortium.org](mailto:s.pickwick@malariaconsortium.org) by March 15.

*The Country Funding and Resource Utilization Report was authored by UNICEF, WHO and MACEPA, a program at PATH. Data was provided by the Global Fund, the World Bank and US President's Malaria Initiative (PMI).*

This launch is organised by Roll Back Malaria UK partners PATH Malaria Vaccine Initiative, Malaria Consortium, Sumitomo Chemical UK PLC, Malaria No More UK, the All Party Parliamentary Group on Malaria and Neglected Tropical Diseases and the Bill & Melinda Gates Foundation.
